Hanger Shape

FLAT

Flat Body hangers have a more traditional design. They feature a slim shape which fit flush and allows more hangers to be placed comfortably side by side.

CONTOURED

A more stylish look, Contoured Body hangers have deeply curved shoulders to mimic the shape of the body. This protects the integrity of the clothing and allows the hangers to nest

Hanger Dimensions

Hanger dimensions have been included to help you visualize the size of the hanger and determine what type of garment the hanger will be used for. Our hangers are available in a variety of sizes. From 3/8" thick to 2" thick

shoulders, each hanger is built with precision craftsmanship to ensure the care of each garment. Standard size hangers are great for any size garment. Use thicker shouldered hangers for heavy garments like robes, jackets, coats

Hanger Hooks

1) **Open Hooks** - Considered a non-secure style of hook, the open hook design is the most widely used. They can be placed on the majority of closet rods and can also be easily removed.

2) **Ball Top Hooks** - Considered the anti-theft style, these hooks can only be used with security rings. Their unique design allows guests to remove and replace the hangers easily. However, if removed from the security rings, hangers with ball top hooks are useless on their own. These rings can be installed in existing rods or newly

installed rods.
3) **Mini Hooks** - Similar to the open hook style, mini hooks are smaller in size. These hooks can only be used with special thin closet rods. These hangers are less prone to theft because of the abnormal hook size.

4) **Closed Hooks** - Our most secure design, the closed hook keeps hangers on closet rods permanently. Clothes can be added or removed from hangers while they hang in the closet. Hangers with these hooks must be placed on rods before they are installed.

Hanger Style

Male Hangers

Standard male hangers have a solid bar or non-slip bar with rubber inlay. These features make it simple to hang pants without causing creasing or slipping. Sturdy shoulders also make these hangers great for hanging tops, dresses or suits.

Female Hangers

Standard female hangers feature a set of clear anti-stain cushion clips. Great for coordinates, these movable clips make it simple to hang tops with skirts, slacks or strapless garments. They can also be used for hanging additional materials like laundry bags or dry-cleaning information.

Custom Design & Specifications

Create your own hanger

Bring your ideas and designs to us and we will work with you to produce your ideal hanger. Because we are the manufacturer, there are endless possibilities. With a variety of colors, styles, materials and finishes at your disposal, we will be able to create a hanger that will uniquely complement your business.

Custom Printing

Brand your hangers

Incorporating your logo design onto each hanger enhances your company's commitment to quality and reinforces your brand's recognition in the minds of your customers. Hangers Direct Hotel Division provides a complete and detailed service for one and two color logo printing.

1 COLOR

2 COLOR

Fast and Inexpensive

All logo pad printing is done in-house which allows us to guarantee superior quality and speedy production at a great price. After placing your order, your branded hangers will be ready within 15 days for one color and 20 days for two color logos.*

*Production times may vary based upon season.
